

News Letter, November 28, 2006

Zaward is pleased to represent you our new launched products; Advanced version of Golf Fan and Cutting-edge Sylphee CPU cooler, now available in the market.

Advanced Ultra silent Golf Fan

Unique patent golf dimple blade reduces 15% noise level at the same RPM & Airflow in comparison with other fans.

- Full operating at only 17dBA
- Ceramic bearing

Extending ultra long life and enables lower noise level.

- 7 Dimple blades

It raises airflow and air pressure at the same noise level.

- 3 Pin to 4 Pin Connector

To convert small 3 pin to big 4 pin 12V input connector

- Multi-options in colour and size

Size - 80x80x25mm / 120x120x25mm

Colour

- | | |
|-------------------------|------------------------------------|
| ● White | ● Blue frame/white blade |
| ● Black | ● Transparent with 4 blue led |
| ● Red frame/white blade | ● Blue transparent with 4 Blue led |

Cutting- edge Sylphee CPU Cooler

A cutting edge design CPU cooler satisfies needs for gamer and PC users. Sylphee is built for high performance and ultra silent. High efficient heatsink combines heatpipe technology, support by embedded ultra silent dual fan to blow away the heats and cool down the CPU temperature at once. Delicate and light-weighted design avoid fear of bending the motherboard.

- Copper base/ Aluminum Fin
- Dual embedded silent fans only 18dBA, intakes air from two sides
- Auto Fan speed controller by Thermistors.
- Air flow blows to multi-directions, cools whole computer system.
- Support Intel's Core 2 Duo, Pentium 4, AMD's AM2 and K8 socket.
- RoHS conformed

- Accessories

Core2dual / AM2/K8 Clipset ; thermal grease; 9 languages installation manual
